> Testimonials

"I can offer my customers a much higher level of services than I could before. The new e-commerce suite has already been a huge success with several of our clients. Not only can they track the visitors on the site, but they can also now see which of their advertising campaigns are working, and which need more work. Also, excellent technical support that actually responds to emails in the unlikely event you need to contact them. An excellent service all round."

-Mike Sutton, ASP Software Services

Other Reports / Features

 Link Popularity	Shows consolidated report of your site's link popularity on top search engines.
 Search Engine Ranking	Shows consolidated report of your search term's ranking on top search engines. Anywhere a search term is displayed on a report, a link is available to this report.
 Search Term Trend	Shows the referral trend for a specific search term.
 Search Engine and Search Term Trend	Shows the referral trend for a specific search term on a specific search engine.
 Page Trend	Shows the traffic trend for a specific page on your site .
 Sub-Accounts Traffic	Displays traffic totals for all sub-accounts.
 Domain Search	Searches for occurrences of traffic from a specific domain. This is useful to see if competitors are viewing your site.

-  **Bookmarks** Manage your bookmarks and assign a specific report to display upon login.
-  **Exports** Email or export any report to Adobe PDF, Word, Excel, CSV, TDF, RTF, or Wordperfect formats.
-  **Combination Reports** Combine and configure any number of reports onto one screen for your own personal dashboard. Then, bookmark it and make it your login page.
